

Announcing the New Lego Robotics Club!

Lego Robotics is a new club for students in grades 6 through 8. They will have a great time building their own robots and programming them to perform a variety of functions. They will have the opportunity to use their creativity and problem solving skills while learning new technical skills.

If you are interested in Lego Robotics, please fill out the registration below and return it with the registration fee of \$30. Equipment will be ordered based upon demand for the club. The first meeting date will be announced as soon as the equipment is ordered, and more information on how the club will work will be provided at that time.

The club will meet every other week. You will either be on one of Mrs. Rizzi's teams or one of Mrs. Miller's teams. Mrs. Rizzi will meet the 1st, 3rd and 5th Tuesdays of each month after school. Mrs. Miller's teams will meet the 2nd and 4th Wednesday of each month.

There will be a \$30 fee to participate in this club.

Please sign below indicating that your child has permission to attend and indicate who will be picking them up. Please return by Monday, September 28.

Child's Name

Class

Parent Name (Printed)

Parent Signature

Name of person picking up your child

Students should sign the agreement below.

I will attend meetings regularly, fully participate and be responsible with the equipment. I will handle equipment carefully and notify the teacher of any problems immediately. I will follow all club and computer lab rules and the Computer User agreement signed at the beginning of the year.
